

A COLOURS CO-LAB

# HYDROGEN

AN INDISPENSABLE  
COMPONENT FOR  
OUR FUTURE  
SOCIETIES

LE MANS  
SEPTEMBER 24-25, 2024

**COLOURS**  
European University Alliance

## What's a Co-Lab ?

A CoLab is an open participatory innovation process based on the collaborative work of stakeholders, enabling alternative approaches based on challenges and the free sharing of knowledge.

## Hydrogen, shaping future

### A POLITICAL AND SOCIETAL POINT OF VIEW

Discussion with politicians about comparative policies and societal acceptability.

### WILL THE CITY OF THE FUTURE RUN ON HYDROGEN ?

Discussion about the different bottlenecks associated to the deployment of hydrogen in the city.

### THE PRODUCTION OF GREEN HYDROGEN

What are the different ways of producing green hydrogen? From fundamental research to industrial project.
