Part 2: True, False, Doesn't Say

Read the article about "Cyberbullying". For each question 1-9, choose the best answer according to the text (A, B or C). Write your answers in the boxes after the questions. There is an example (0) given at the beginning. (9 points, 1 point each question).

Cyberbullying

When Denise Edwards (not her real name) saw a text on her 11-year-old son's phone that said, "I'm going to kill you tomorrow" from an unrecognized number, her heart stopped. She asked her son about it and was shocked to hear an older boy on his bus had been sending these types of texts for about two months.

Experts estimate that teens are at least four times more likely to say something hurtful or demeaning to another child when using a phone or computer since their victim cannot see them.

Tim Woda, a digital safety expert, explains: "Cyberbullies are often not the biggest kids on the playground or the meanest girls at school. If you want to protect against cyberbullying, parents need to be aware of what their kids are doing online and be willing to act quickly when they see a problem."

Here are a few tips for parents to prevent cyberbullying:

- 1. Talk about it: The best defense is a good offense. Ask your child how they would respond if someone were mean to them online. What should they do? Is it okay to forward a text message making fun of someone?
- 2. Spot it: Cyberbullying can cause kids to avoid using their phone or computer, or appear stressed when receiving an e-mail or text. They may act reluctant to attend social or school events or avoid conversations about school or friends. In extreme cases, the child will have declining grades, stop eating or have difficulty sleeping.
- Deal with it: Teach them to never respond, save the evidence and report the incident to an adult they trust. Next, engage school administrators to discuss their cyberbullying policy and develop a plan of action. Sometimes a school guidance counselor can act as a mediator for this type of meeting.
- 4. Prevent it: Stealing your child's phone or their passwords to social networking accounts is not an ideal way to understand what's going on in their digital world. Use a parental intelligence service, such as uKnowKids.com, that can alert you to dangerous behavior and cyberbullying.

Part 3: Fill in the Gaps

You are going to read an article about the Boston Marathon. Complete the sentences 1-9 with <u>no more</u> <u>than three words</u> with information found in the text. There is an example (0) given at the beginning. (9 points, 1 point each)

The Boston Marathon

Every year, nearly a half million people come out to the streets to watch the Boston Marathon. Since the first race in 1897, the Boston Marathon is the oldest annual marathon in the world. The race was inspired by the first Olympic marathon in 1896. The race is traditionally held on Patriot's Day, a local holiday which is on the third Monday in April. The event's organizers, the Boston Athletic Association, spend months preparing for the big day. The 26-mile, 365 yard course starts in Hopkinton and ends in downtown Boston just in front of the John Hancock building, an insurance company that is the event's main sponsor. Runners consider the Boston Marathon as one of the most difficult courses due to its many hills. The most challenging hill has been named "Heartbreak Hill" because it is there where many runners have collapsed from exhaustion and were unable to finish the race. For most of its history, the only prize for winning the race was a wreath that was made from olive branches. Actually, it's only been since 1986 that winners started to receive money. Although the race attracts top runners from all over the world, most people can't wait to see the most famous running team, Team Hoyt. Rick and Dick Hoyt have been running the marathon since 1982. Rick has cerebral palsy and his father, Dick, pushes his son in his wheel chair all along the 26-mile route. Although they have never won the race, they continue to be one of the most inspirational stories in the history of the event.
